

TOUCAN

DIY papercraft template (PDF).

Size : 310mm Height / 360mm Width / 330mm Dept

A4 sheets : 10

What you need :

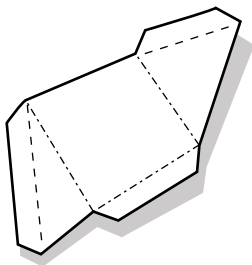

- Stationery knife.
- Ruler
- Scoring tool (ball pen tip, awl pointed tool, etc)
- Quick drying craft glue.

What you need to do :

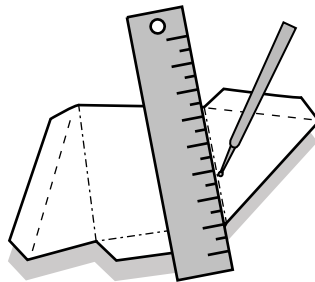

Print out the template on your favorite cardboards. 160 - 300 grams.100% scale. You can easily scale the whole design to get a bigger or smaller model.

Note: If you do not want the fold lines and numbers to be visible, just fold in the reverse direction of the directions as instructed below.

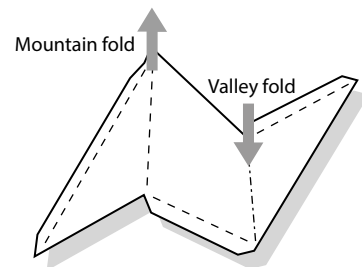

Caution: Much thicker paper will make the tiny parts much difficult to fold.

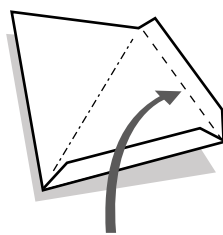

Cut out the shapes.

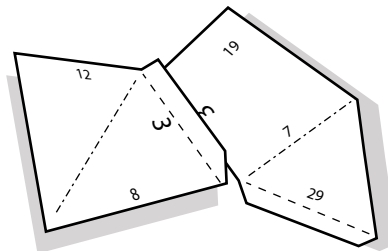

Mark mountains and valley folds with scoring tool along the ruler. This will help to get a clean edges and avoid tearing the cardboard.

Mountain fold - - - - -
Valley fold - - - - -

Crease dashed lines and Fold the tabs firmly on both sides

Glue the same corresponding number tabs to one another.
